

## Mid-Atlantic Flat-Coated Retriever Club

### President's Message

Happy New Year to all MAFCRC members,

I am pleased to welcome in the New Year with a new Treasurer for the club. Effective immediately, Janet Herrington replaces Larry Zimic as Treasurer.

As many of you know, Larry retired from his company at the end of December. In the hope that he can spend all his free time fishing in Maine, he also asked to be relieved of his Treasurer and Board responsibilities. We thank him for his efforts on behalf of MAFCRC and wish him lots of fun and relaxation in retirement.

Janet Herrington, husband Bob and their boy Prince have become very active in MAFCRC activities. Janet recently organized our owner/handler clinic. We are confident that Janet will do a wonderful job for us as our new Treasurer. Any checks or requests for reimbursement should be sent directly to Janet at [irishome@embarqmail.com](mailto:irishome@embarqmail.com) and 7 Haldiman Ln, Blairstown, NJ 07825.

### Meet the Breeds

Our club will be participating in MTB during Westminster Weekend. This event is a great way to show dog lovers the wonders of our breed. The dogs love the attention and visitors get the chance to meet our beautiful dogs. Those wishing to participate should contact Mary Jane Koren or Andy Abramowitz for details.

lilyfieldfcrs@gmail.com*

*Lisa DiStefano—  
lmdimt4@gmail*

Please continue to send any dues checks to Peg Forte, our Membership Secretary.

Janet is also a member of our Conformation Committee. She has agreed to act in a new capacity as our Conformation Title Promoter. As our CTP, Janet will help keep track of members working on conformation titles with their flat-coats. Titles to be included are champion, grand champion and GCH levels. Janet will work on getting the word out on upcoming events in the club area and encouraging entries. She will be reaching out to everyone with more about this soon.

Please join me in welcoming Janet to her new positions and thanking Larry for his past efforts.

Our club is busy preparing for our annual events including Meet The Breeds at Westminster, Spring Supported at Bucks Kennel Club, Fun Day & Field Day. We hope you can attend one of our events.

Keep Warm,

Donna

## FLAT COAT DATA

Flat Coat Data is a online database of FCRs. It is free to FCRSA members. Flat Coat Data brings together data on Flat-Coated Retrievers throughout the world - both past and present. Join us now and add your own dogs to this international database. Dogs and health data are being added daily.

**Go to <https://www.flatcoatdata.com>** and see if you dogs are included in this database. Add photographs and health data of your current and past dogs and record health issues which you may not be able to record elsewhere. If we all provide accurate information it will make this a very powerful and invaluable tool.

## Health Testing

### OFA-CHIC Health Testing Requirements

- Eye Examination by a boarded ACVO Ophthalmologist
- Patellar Luxation OFA Evaluation
- Hip Dysplasia OFA Evaluation
- Permanent identification via microchip or tattoo

CHIC numbers generate automatically once all requirements have been recorded at the OFA. More information is available at [www.ofa.org](http://www.ofa.org)

### Genetic Tests: UGL/Better-Bred vs Embark

Despite our best research and breeding efforts, health concerns and cancer in Flat Coats seemed to be on the rise. However, new DNA tests and solutions to these health concerns are slow in coming and very costly. So what can we do to tackle these problems in the meantime, when our dogs' lives depend upon the decisions we are making today? An option for us was to seek to maintain our breed's genetic diversity while waiting for more disease-specific tests and health-data entry into FlatcoatData. Genetic diversity has been studied in many species, including dogs. It has health, reproductive, and adaptive benefits both to individuals and to populations (breeds). Of the

Genetic Diversity Program Goals	VGL/BB	Embark
1. Provide our membership with an accurate assessment of our breed's actual genetic diversity.	Yes	No
2. Provide our membership with updates on our breed's genetic diversity as new information becomes available.	Yes	No
3. Provide an owner with an assessment of the state of each individual dog's actual genetic diversity.	Yes	Yes
4. Provide the dog owner with a means to analyze their dog's data so they can make meaning of it.	Yes	No
5. Provide breeder's with means to analyze genetic diversity test data to assist them with their mate selection, possible litter outcomes, and puppy selection.	Yes	No
6. Assist breeders in maintaining the genetic diversity that will help to preserve the health of our breed.	Yes	No
Bold above = most important		

two options for genetic testing, only UC Davis VGL/BB meets all of the goals of a breed's genetic diversity testing program. By comparison, Embark only meets one of our six goals and neither of the most important. UC Davis VGL/BB is more expensive over time for those who use the breeding tools but is only one third the price for owners wanting to submit their dogs.

# AKC RULE CHANGES

## Obedience – Amendment to the Open Class, Stay-Get Your Leash Exercise – Effective 01/01/2019

Currently, in the Open class, the “Stay – Get Your Leash exercise is made up of two-parts. First the handler must leave the dog in either the sit or down position when commanded to do so by the judge for a period of one-minute, then after one-minute, the judge orders the handler to return to the dog, and then to leave the dog again to go get the leash, which is outside the ring. The handler picks up the leash, re-enters the ring, stops at the ring gate entrance facing the dog, and waits for the judge’s order to return to the dog. The AKC Board of Directors approved a change to this exercise to make this a single-part exercise with a “Stand” Stay – Get Your Leash. Changing the exercise to a single-part exercise will save time over the course of the Open judge’s assignment. It is important that the exercise demonstrate the dog’s ability to control its impulses and maintain the worthiness of this practical exercise.

### OPEN I-VI Stand Stay – Get Your Leash

**Section 17. Stand Stay – Get Your Leash.** The principal feature of this exercise is that the dog stand and stay in position until the handler has returned to heel position. The orders are: “Stand your dog,” “Leave your dog to get your leash,” and “Back to your dog.” The handler will stand with the dog sitting in heel position in a place designated by the judge, approximately 15 feet from the ring gate. The judge will ask “Are you ready?” before giving the first order. On the judge’s order, the handler will command and/or signal the dog to stand without touching the dog or the dog’s collar. The dog must stand but need not stand in heel position. On further order to “Leave your dog to get your leash,” the handler may give a command and/or signal to stay and will walk forward directly to the place outside the ring gate designated by the judge for the leash. The handler will pick up the leash, re-enter the ring, stop and wait for the judge’s order “Back to your dog.” The handler must return directly, walking around and in back of the dog to heel position. The dog must remain standing until the judge has said “Exercise finished.” The judge will tell the handler “Attach your leash to the collar and maintain control of your dog.” The handler is required to exit the ring gate with the dog under control and without jumping, pulling or tugging on the leash. **Judging Procedures:** *Prior to the start of judging, the judge will decide where the leash will be placed outside the ring on a chair or similar leash holder. The leash will be placed outside the ring by the steward after the dog and handler have entered the ring for judging. When positioning the dog and handler for this exercise, the judge should ensure that such positioning will permit the dog to keep the handler in its direct line of vision as the handler leaves and returns to the ring, and that the handler, when reentering the ring, is at least 15 feet away from the dog until ordered to return. During this exercise the judge must be in position to watch the dog and see the handler leave and return to the ring. Once the exercise is finished, the judge must watch the dog and handler exit the ring together.*

**Section 18. Stay – Get Your Leash, Scoring.** A non-qualifying score (NQ) is required for a dog that does any of the following: Fails to stand on the first command and/or signal, moves a substantial distance away from the place it was where it was left, sits or lies down before the handler has returned to heel position, or repeatedly barks or whines. Substantial deductions will be made for a dog that sits or lies down after the handler has returned to heel position and before the judge has said, “Exercise finished.”
